

BHUSHAN GANGURDE

Python Developer | Backend Developer

✉ bgangurd@gmail.com | 📞 [8010032368](tel:8010032368) | 📍 Pune, Maharashtra | [www.linkedin.com/in/ bhushan-gangurde56](https://www.linkedin.com/in/bhushan-gangurde56) | <https://github.com/Bhushangcoe>

CARRIER OBJECTIVE

Computer Engineering graduate with a strong foundation in Python, SQL, Data Science, Artificial Intelligence and Machine Learning. Currently pursuing Data Science training at Techno Signia Software Institute, Pune, to strengthen my knowledge of data analysis, machine learning, and real-world problem solving. Seeking an opportunity to apply my technical skills, gain practical industry experience, learn emerging technologies, and contribute effectively to the growth of the organization while building a successful career in the technology field.

TECHNICAL SKILLS

Programming Languages	Frameworks & Web Technologies	Databases & Tools	Data Science & AI
• Python • SQL • JavaScript • C • C++	• Flask • FastAPI • React.js • HTML5 • CSS3	• MySQL • SQLite • Git • GitHub • VS Code	• Machine Learning • Artificial Intelligence • Pandas • NumPy • NLP • OpenCV • MediaPipe • Whisper AI

<> Projects

SARATHI – AI Personal Voice Assistant Aug2026 - Present

Python | Ollama | Llama 3.2 | Piper TTS | Speech Recognition | Tkinter | Pygame | NLP

GitHub: <https://github.com/Bhushangcoe/SARATHI>

- Developed a modular **AI-powered personal voice assistant** using Python with **Ollama and Llama 3.2** as the local conversational AI engine.
- Integrated **speech recognition and Piper TTS** to enable voice-based interaction with English and Hindi voice support.
- Implemented **conversation memory** to maintain context across interactions and provide more relevant responses.
- Added deterministic **PC and system commands** for reliable execution of predefined computer operations.
- Built a **Tkinter-based desktop interface** with separate modules for AI processing, voice input/output, system actions, and knowledge management.

AI Meeting Summarizer Oct 2025-Feb 2026

Python | Flask | Faster-Whisper | Ollama | Llama 3.2 | SQLite | JavaScript

GitHub: <https://github.com/Bhushangcoe/AI-MEETING-SUMMARIZER>

- Developed a local AI-powered meeting assistant for near-real-time speech-to-text transcription using Faster-Whisper.
- Integrated Llama 3.2 through Ollama to generate structured meeting summaries, key points, decisions, and action items.
- Implemented meeting history, search, reporting, and SQLite-based data persistence.
- Built a responsive dark-themed web interface with live transcription and AI processing indicators.
- Implemented segmented audio processing to support continuous meeting transcription.
